Father as manifest through the Celestial Kingdom, the Angelic Host, and the Hierarchy.

If you would visualize your consciousness like a great ball or sphere rotating like the hands of a clock, from left to right, at a certain speed, and all the time throwing off electrical waves into the atmosphere, you would have a very good picture of the activity of your consciousness as seen with the inner eye. Then if you would visualize the Ascended Master's Consciousness like a great iridescent sun filled with the prismatic colors of the rainbow, as much larger than your own as the head of a pin is to the sun in the heavens, and whirling in the same direction as your own, but so rapidly that you cannot see the rotation, and sending off tons of Flame into the atmosphere that makes the entire heavens glow with its radiance, you would see THAT towards which you aspire. Now if you will take the lesser consciousness (which is your own) and place it, mentally, in the very center of that great whirling sphere of the Master's Consciousness, visualize the absorption of the one into the other, and center that whole contemplation at the point between your eyes where the inner eye is developing, you will experience the most marvelous expansions of consciousness which has become like an open book to the advanced chelas of the past.

If you will dwell upon this explanation, you can hasten tremendously your own unfoldment, and if you will consciously blend your human consciousness into any Ascended Master's Consciousness upon which your mind dwells, you will find His Powers flowing through you freely to assist mankind.

Blessings and Love,

MAHA CHOHAN

ON CAUSE AND EFFECT

The mixing of certain foods together forms a very pleasant and edible concoction which is a source of happiness and satisfaction to your families and friends. You set up a cause by mixing those various individual foods, and the ultimate result will be the effect you desire.

In this very simple example, you have the La of Karma - Cause and Effect. You know before yo begin what the effect will be, and you proceed with assurance that if you adhere unerringly to the necessary rules and regulations, that your ultimate presentation will be, not only beautiful, but tasty.

What you have done in your culinary experience, you can do equally well in life. If you would put the proper qualities together, you would have the same effect - with the same degree of accuracy - and you would have as desirable a manifestation as you had in your cooking; BUT because the qualities of fearlessness, confidence, strength and purity are unseen qualities, mankind feels that they can put a little less or a little more of one or the other into their original Cause and still have a desirable Effect, where no wise person in a culinary department would tamper with an intricate recipe and expect perfect results.

You may draw as much Love, as much Fearlessness, as much Light, or as much Happiness as you desire into any picture that you may hold in your mind, whether it is for the strength and endurance of

someone you love, or for the freedom of the whole race, and if you continue to reject all unpleasant feelings and thoughts from your mental and emotional picture, even as you would reject poison or any other unpleasant substance for your cake, you would be successful in your manifestation.

If you were preparing a special dish for your family, you would not allow anyone to drop ink or glue or waste matter into it. You would know, without My saying so, that the result would be imperfect; and yet human beings. in drawing a perfect picture for their loved ones or for their house or their business, allow any passing thought that proceeds from the ignorant minds of men to flow into that form and pollute it. Remember, that the effect will carry the taint of that which you allowed to enter your cause, either consciously or unconsciously - for that is the LAW.

As below - so above. In the Realm of the Ascended Masters, They too follow the same Law that is being worked out with such difficulty in the third dimensional plane as Cause and Effect. The Theosophical World has called it KARMA, and it has become a mesh of intricate design which has caught the soul, rather than an exquisite proof of the creative power focused within each human heart. In the Ascended Master Octave, if Effect did not proceed from Cause, the Masters would have no power to follow through any design, but as the human mind is thoroughly convinced that two and two makes four, so does the Master know, without question of a doubt, that Effects will follow Causes set up within His heart and mind consciousness. Try it for yourself.

REPORT BY THE BELOVED SAINT GERMAIN ON THE ACTIVITIES IN THE TRANSYLVANIA RETREAT ABOUT HALF AN HOUR BEFORE TRANSMISSION OF FLAME - JULY 18, 1953

Beloved ones, tonight is an anniversary; and one that I can celebrate with particular personal happiness for this magnificent activity brought to such full fruition; particularly when the curtain had all but closed upon My humble endeavor through the past twenty years.

Tonight Transylvania is a beautiful sight as We look at it from the inner standpoint. It is not a large State at most, but from border to border it is ablaze with deep purple Fire. Devas and Angels and Elementals clothed in every hue of the Violet Ray are bathing in this tremendous Aura of pulsating Violet Flame, and from the Heart of the Sun, a Directed Ray of the most intense Purple Fire that has ever touched the Earth is anchored through the focus of the Freedom Flame which it has been My privilege and honor to guard for many centuries.

The Freedom Flame Itself burns upon the Altar, and the Beloved Brothers and Sisters have decorated the entire Assembly Room in Maltese Crosses made up of exquisite floral offerings representative of the various countries from whence they came. Each has followed the pattern of My own Electronic Light Pattern, but the flowers symbolize the location of the Retreat or Sanctuary from whence the Brothers and Sisters have joyously come
